Technical information

Our fabrics adhere to infection control standards and procedures and can be washed at up to 85 degrees C.

Our fabrics and garments are tested for durability and reliability.

We use Arcadia approved facilities to manufacture all our garments. This means they are subject to the highest quality control standards.

We produce initial samples for all our customers to enable approval of designs prior to manufacture.

We provide size sets prior to order to enable your staff to try on garments in advance, therefore ordering the correct sizes.

All tunics are made with action back pleats for ease of movement during work. This allows for an overall tailored finish to the garment.

Garment details such as sleeve finishes, garment length and necklines can be adjusted depending on your requirements.

All trousers are available with or without front seam stitch. This gives the effect of a permanent ironed look.

Waistbands and pocket details can be adjusted depending on your requirements.

If you have any specific requirements, please call +44 (0)1332 331 643.
